- With two sensor settings: on/off or on/dim • 5-year LED guarantee

The Coupar series by Danish design duo Says Who exhibits a modern take on the traditional lantern. With clean lines and yet a soft, rounded design expression, the series effortlessly combines classic characteristics with a modern, contemporary look. The lamp charges by sunlight during the day and turns on when it detects motion during the night. You can choose between two sensor settings: off/on or from nightlight to full light when you walk by. Easy installation with no cables needed.
